VOLUME 93

PART II.—October, November, December, 1918

AERONAUTICS

		Page
Inventing New Flying-Machines	October	33
Shot Down from the Clouds	October	49
The Aviator's Luck Gods	October	64
Riders of the Air Elephants	October	77
Stepping Over at 10,000 Feet	November	17
The Airplane Flare—To Light the Enemy's Country	November	51
The Bomb-Droppers and How They Work	November	52
Out-Guessing Anti-Aircraft Guns	November	56
How the Hoffman Wire Tuning-Box Works	November	56
Life-Lines of the Airplane	November	57
Launching a Hydro-Airplane	November	59
Domesticating the Airplane	November	85
The Flying "Circus"	December	26
A Racing Yacht of the Air	December	29
Flights—of the Imagination	December	58

AGRICULTURAL SCIENCE

Mirrors on Motor-Plows	October	44
Farmers Turn Night into Day	October	64
Harvesting North Carolina's Soy Beans	October	84

ELECTRICITY

An Electric Cattle Prod	October	45
Electric Lights in the Arctic	October	59
This Heater Looks Like a Ruler	December	28
Morse Signals by Lantern	December	57

INDUSTRIAL PROGRESS

How to Keep Warm This Winter	October	41
A Corporation that Cooks for You	October	43
For the Writer or Flat-Dweller	October	44
A Traveling Mail-Box	October	44
A Bell Announces Rain	October	44
To Roll Barrels Uphill	October	44
A Safety First Gate	October	45
Automatic Sand Screen	October	45
Make Falling Trees Pull Up Stumps	October	45
No Hardship Now in Monday's Wash	October	45
She Brightens Up the Sky-Line	October	46
Sucking Up Mud by Wagon-Load	October	58
Lever Raises Wireless Tower	October	58
Use Your Belt to Get a Drink	October	59
To Demonstrate a Luminous Crucifix	October	59
Eliminating Telephone Noises	October	59
Fighting Dust with Dust in Coal-Mines	October	60
The Greatest Flight of High-Lift Locks	October	65
Housekeeping Made Easy	October	66
When the Burglar Says "Hands Up"	October	76
Every Man His Own Usher	October	76
Herding Sheep from Airplane	October	79
Making a Wall Out of an Old Sidewalk	November	19
"Dutch Bulbs" Are Now Grown in America	November	38
A Convenient New Label-Holder	November	44
Turning the Barbecue with an Engine	November	44
Modern Way to Plant Poles	November	44
A Typewriter Brush with Self-Oiler	November	44
A Handy Blow-Torch	November	44
The Refrigerated Library	November	45
To Outwit the Pickpocket	November	45
For the Shine Boy	November	45
Labeling 7000 Cans an Hour	November	45
A Beer-Keg Anvil-Stand	November	45
A Roaster for the Camper	November	45
Your Safety Blades Can Be Honed	November	46
Better Stop, Look, and Listen	November	48
A Marine Railway Portage	November	48
Making Old City Pavements into New	November	49
To Restrain the Frivolous Focusing-Cloth	November	49
A Tractor with Three Wheels	November	54
Armor for the Picture-Hanger	November	59
No More Waiting While They Figure Your Interest	November	60
Mule-and-a-Half Power in the West Indies	November	60
Let Machines Do Your Work	November	66
Housekeeping Made Easy	November	67
From Peanut Wagon to Flower Shop	November	74
For Plucking Fowl	November	74
Meter Readings by Post-Card	November	74
Bridge Gives Way to Steamer	November	74
Germ-Proof Churn	November	74
Wrist Whistle	November	74
Cartridge that Carries Light	November	75
Ways to Make the Freight-Car Do More Work	November	78
Portable Outfit for Lecturer	November	83
Giant Bubbles Foretell Fortunes	November	84
A Calculating-Machine for Converting Money	December	21
Making the Traffic Policeman Comfortable	December	21
The Chimney Smokes—Look in the Pipe	December	28
To Moisten Air from a Hot-Air Furnace	December	28
Building Up the Coal-Bin	December	28
Fill Your Shoes with Hot Air	December	28
Miniature Check-Book	December	36
A Really Obliging Obstacle	December	36
Keeping Barnacles from Wharf Piles	December	46
Keep a Fire-Escape Under Your Window	December	47
Cooking Over the Stable Lantern	December	50
An Odorless Kitchen	December	50
A Kerosene Lamp Provides Warm Lunches	December	50
Don't Blow Out the Gas	December	51
To Make Burning Gasoline Safe	December	51
Patching Water Main Without Inconvenience	December	54
Machinery Aids in Labor Shortage	December	54
Butter from the Coal-Oil Cow	December	55
Light Up Your Satchel	December	56
Converting Garbage into Good Pork	December	57
For Painting Traffic Lines	December	57
The Caterpillar Now Applied to Ships	December	68
Planing Timbers with Little Machines	December	68
By Tunnel from London to Paris	December	69
Piping Water through Miles of Redwood	December	74
Making It Easier for the Sand-Blaster	December	76

MEDICINE, SURGERY, AND HYGIENE

Curing "Shell Shock" with Electricity	October	32
Not to Be Sneezed at	November	19
Gassing the Germs in Books	November	49
Treating Four-Footed Patients in a Hospital	November	50
Crippled but Undaunted	November	70
Extracting the Mule's Bray	November	82
Is Your Child Left-Handed?	December	22
Sleep Outside of Your Window	December	47
Coddling Cooties on His Arm	December	56
To Save the War-Horse	December	57
Saving 100,000 Lives This Year	December	65
Germs as Deadly as German Gas	December	65
Blood Will Tell	December	72

MOTOR VEHICLES AND THEIR ACCESSORIES

Making the Night Safe for Automobilists	October	40
Lock the Pedals of Your Ford	October	40
Steer with Your Feet	October	40
A Non-Skid Motor-Truck Belt	October	40
The Automobile Ambulance	October	42
Driving on Illuminating Gas	October	42
Automobile Stove Heated by Exhaust	October	54
Turning Your Ford into a Wagon	October	54
Doing Away with the Fly-Wheel	October	54
To Lead a Gypsy's Life	October	54
Run Your Motorcycle on Coal-Gas	October	54
Adjusting Blades of Fan While Running	October	55
A Pneumatic Valve-Grinder	October	55
A Carry-All for Tourists	October	55
A Collapsible Suit-Case Holder	October	55
Make the Engine Do It	October	55
When the Tractor Strikes a Rock	October	55
Sixteen Helpful Hints for Motorists	October	62-3
Self-Loading Truck Saves Own Time and Man Power	November	40
Making the Engine Dump the Truck Body in a New Way	November	40
Trucks to Pump Out Trenches	November	40
This Grease Will Not Soil Your Hands	November	41
An Attachment for Driving a Truck Over Soft Ground	November	41
Convenient Engine Pump for Trucks with Pneumatic Tires	November	41
Motor-Trucks Revolutionize Telephone Construction	November	54
Don't Scrap that Old Car—There's Money in It	November	55
Ford's Cavalry in Action	November	57
Mending the Bones of War Cars	November	59
Mechanical Aid and Comfort for Automobilists	November	62-3
The New Motor Locomotive	December	30
An Automatic Gear-Shift	December	30
Putting the Wheel Around the Tire	December	30
To Start Ford Cars in Winter	December	30
Combination Garage and Greenhouse	December	31
Fill the Tank and Watch the Dial	December	31
A New Spark-Plug Primer	December	31
Transporting Race-Horses by Motor-Truck	December	31
Mechanical Aid and Comfort for Automobilists	December	52-3
This Truck Gets Under the Load	December	54
A Self-Opening Garage Door	December	62
A Smokeless and Odorless Foot-Warmer	December	62
A New Diesel Engine for Trucks		62
To Operate a Train of Automobiles	December	63
A Combination Tractor and Road Truck	December	63
Going Motoring?—Take Your Boat	December	68

NATURAL SCIENCE

Our Captive Sun, Slave to a Beaten Path	October	31
Why Are There Giants and Dwarfs?	October	31
The Huge Appetite of a Caterpillar	October	76
Fighting Young Chicken-Hawks	November	19
Breaking a Snake's Hunger Strike	November	22
No Chorus Girl Could Eat This Lobster	December	36
The Wettest Place on Earth	December	38
A Moon that Sets in the East	December	38
A Clever Counterfeit of Nature	December	46
A Fish that Shoots Its Prey	December	46
Make Sunlight Your Alarm-Clock	December	56
Where Future Rheumatics Will Take the Cure	December	74
The Astonishing Structure of a Feather	December	77
Blackfish Land at Nantucket	December	80

PICTURE PAGES

Nature Invented Camouflage	October	20
What Goes Up Must Come Down	October	21
Did the Recruiting Officer Say "No"?	October	24-5
Light Housekeeping for Bachelors at the Front	October	26
What It Means to Feed an Army of 2,000,000	October	27
"Dear Wilhelm: In Reply to Yours—"	October	28-9
Thrillers by the Foot	October	30
Housekeeping Made Easy	October	66
Do It with Tools and Machines	October	67
Through Inferno to the Rescue	November	23
Setting the Stage for a Museum Group	November	24
How Did They Ever Get Along in Father's Day?	November	25
Cast Up by the Red Tide of War	November	26
Keeping the Army on a Good Footing	November	27
Gasoline Bronchos in War and in Peace	November	28
He Makes Thousands Laugh	November	29
We'll Win the War with Shells—and Dollars	November	30-1
Many Are the Makeshifts of War	November	32
When There's One More River to Cross	November	64
War Is Not Always Hell	December	24-5
Two Wars for Liberty	December	32-3
Our Automobile Horsepower	December	40
Let Garbage Win the War	December	41
While Their Fathers Fight	December	48
Why the War Office Had Nightmare	December	49
What True Americans Eat	December	60
A Real Goat-Getting Industry Born of War	December	61
Housekeeping Made Easy	December	66
Do It with Tools and Machines	December	67
Handy Office Devices	December	78

336829

INDEX TO VOLUME 93—PART II

PRACTICAL WORKERS

		Page
Building a Log Cabin	October	85
Secret Entrance to Shelves of Cupboard	October	86
Making a Good Soap from Scraps of Fat	October	86
Oil Feed of Lubricators	October	91
Sandpaper as a Lead Pointer	October	91
Watching a Plant Spring from Seed	October	92
To Make Attachments for a Surprise Chair	October	92
Making Tape from Cotton Cloth (Electricity)	October	92
Home-Made Thermit	October	94
New Use for a Coffee-Mill	October	94
Repairing Broken Teeth on Starting Gear	October	95
Peach Stones for Fuel	October	95
Key Patterns for Marking Size for Keyway	October	95
For a Gaging Pencil	October	96
Camouflage	October	96
Home-Made Portable Repair Stand	October	96
To Make Gate-Latch	October	96
Preparing Silk for Photographs	October	96
Simple Designs for Sheet Metal Working XVII.—Furnace and Ventilating	October	98
Making Mechanical Drawings in Glass Lantern Slides	October	100
Emergency Lamp for Traffic Post	October	101
Aluminum as a Hone for Steel Tools	October	101
Twenty-five Mile Electric Signal Projector	October	102
Outdoor Metal Fireplace	October	103
Simple Die for Corrugated Diaphragms	October	103
Electric Lights on a Suit-Case	October	104
Tank Filler Cap and Pump Squirt Gun	October	104
Photographic Ray Filter	October	104
To Take the Place of a Water-Bottle	October	104
Transformer to Locate Short Circuit	October	106
Night Lighting for Boy Scouts	October	106
Taking Up Wear in Motorcycle Engine	October	107
How to Figure Paint to Cover a Given Area	October	107
Carrying Lock in Motorcycle Without Rattling	October	107
A Tool-Box Cover Convertible into Bench	October	108
Marking Tool Made on a T-Square	October	109
Fastening Belt Buckle on Stapling-Machine	October	109
Spring for Tent-Pole	October	110
Controller for Batteries	October	110
Box for Tire Service Station	October	111
Tire Casings Riveted to Prevent Side-Slipping	October	111
Detecting the Presence of Aniline	October	116
For Drilling Holes in Difficult Places	October	116
To Test Sliding Parts of Machinery	October	117
Catching Sparrows on Ivy with Net	October	117
Mechanical Hallowe'en Pranks	October	118
Code-Learning Instrument	October	120
Substitute for Bulb on Medicine-Dropper	October	121
Novel Boy Scout Range Finder	October	121
Raising a Building Without Tools	October	122
Handle for Discarded Safety-Razor Blade	October	122
To Increase Range of Voltmeter	October	123
Home-Made Folding Bed for Touring Car	October	126
Holding an Animal for an Operation	October	129
Dammar Varnish for Photographs	October	129
Emptying Carboys by Simple Method	October	130
To Keep Electric Bulbs from Falling	October	131
Making a Beautiful Polish on Silverware	October	131
Date-Stamp Handle to Show Right Side	October	132
Adjustable Spout for Sprinkling-Pot	October	132
Figuring the Weight of Ice	October	132
Locking Cage Shield for Spark-Coil Box	October	133
Counting Disk Board for Cribbage	October	133
Electrical Devices and How They Work	October	134
Repairing a Bearing by Shrinkage	October	137
Small Car Made of Bicycle Parts	October	138
Use Both Eyes When Shooting	October	138
Improving Lasting Qualities of Negatives	October	138
How Rifle Bullets Are Tested	October	139
Making a Phonograph from Erector Strips	October	140
To Clean and Polish Brass	October	140
Small Tap to Prevent Breakage	October	140
Whistle Made from Baking-Powder Can	October	141
Wire Guide Around the Key-Hole	October	141
Repairing Motorcycle Frame Without Brazing	October	142
Press to Shape Rebound Books	October	142
Monkey-Wrench in Vise to Hold Pipe	October	143
Coating to Keep Silver from Tarnishing	October	143
Rubber-Band Gun for Boys	October	143
"Helping Out the Farmer" Contest	November	86
Warm a Lens to Make Photograph in Cold, Damp Places	November	87
A Transparent Lacquer for Celluloid Surfaces	November	87
How to Skin and Dry Pelts	November	88
A New Steam-Air Blower for Forced Draft	November	91
Try This on Your Strong Friends	November	91
Construction of an Altazimuth	November	93
To Make a Mercury Plumb Bob	November	94
To Clean Aluminum	November	94
Machine Bearing from a T-Rail	November	94
Camera for Projecting Post-Cards	November	96
To Remove Can Cover	November	96
To Make Negatives Last	November	98
Portable Crane for Garages	November	98
Movable Stop-Cock for Water Faucet	November	99
To Remove Ink-Stains on Silver	November	99
Simple Designs for Sheet Metal Working	November	100
Fireplace Dummy Radiates Heat	November	104
Substantial Eyelet for Soldier's Bag	November	106
Testing the Polarity of Motors	November	106
An Efficient Cheap Filter for Chemicals	November	107
Remedying Frayed Shoe-Laces	November	107
Binding Pages with Single-Piece Back	November	108
A Clean-Sweep Broom	November	108
A Ventilator Which It Is Easy to Regulate	November	109
Package Carrier for a Bicycle	November	109
To Start a Charcoal Furnace	November	110
Adapting Hand-Power Grinder to Foot-Power	November	110
Reel for Winding Electric Test Cord	November	111
To Make Ink Waterproof	November	111
What Do You Do with Old Tires?	November	112
To Make an Electrical Socket	November	113
Safeguarding an Emery Wheel	November	113
Five Ways of Saving Fuel	November	114
Dark-Room Lamp from Tin Can	November	116
Remedying Old Typewriter Erasers	November	116
How to Make a Corn-Crib Rat-Proof	November	118
Reinforcing Motor-Truck Frames	November	120
Spikes Make Serviceable Tent Stakes	November	120
Electric Heater for a Toy Engine	November	120
Flanged Steel Wheels in One Piece	November	121
Ordinary Buzzer for a Shocking Machine	November	121
Electric Spot-Light for Sewing-Machine	November	126
To Amplify Weak Wireless Signals	November	127
Easy Method to Rebind Magazines	November	128
How to Tell the Age of an Egg	November	129
New Solder Will Expand in Cooling	November	129
To Construct a Two-Inch Spark Coil	November	130
Protecting a Small Drill Under Pressure	November	131
Combination Candle- and Match-Holder	November	132
Mosquito Netting in Roof Repairs	November	132
Heating the Carburetor	November	132
Trick of Drawing a Card from Handkerchief	November	133
Weighing Finger Ring on Large Scale	November	133
Electric Devices and How They Work	November	134
How to Fasten Field Wires	November	137
Drop Shelves for House or Store	November	138
To Make Colored Varnishes	November	139
New Wireless Chain Between the Americas	November	140
Preventing Theft of Pressure Gage	November	143
Enlarging Hole in Pulley Without a Reamer	November	143
Sailing on Skates	December	82
A Rain or Snow Alarm	December	84
Fuse Tongs Made of Fiber	December	84
Log Seat for the Garden	December	85
An Acid Etching Fluid for Aluminum Surfaces	December	85
An Electro-Thermostatic Control for Boilers	December	86
Reinforcing a Stove Lining	December	90
Miniature Electric Reading-Lamp	December	90
A Firm-Grip Clothes-Line Holder	December	90
Truing Up Screw-Driver Blades	December	90
Building a Brick House on Swampy Ground	December	92
Knife Erasers from Old Safety-Razor Blades	December	92
Use Wagon-Poles for Removing Fodder	December	92
A Tool-Rack Made of Clothes-Pins	December	92
A Hose-Rack Made of Pipe	December	95
Automobile Rod Held with Wedge and Cotter	December	95
Old Film to Make Dotted Line	December	97
To Narrow Gage of Locomotive Wheels	December	97
Simple Designs for Sheet Metal Working XIX.—Patterns for Ship's Ventilator	December	98
A Socket for Small Battery Lamps	December	101
A Bicycle-Lamp Made of a Paper Bag	December	101
A Nut-Cracker that Doesn't Crush Kernels	December	102
A Double Clothes-Line	December	102
Tool for Cutting Glass Tubing	December	102
Removing Burr Formed by Sawing Off Bolt Ends	December	102
Encasing a Battery Cell to Keep Out Dampness	December	103
Draughtsman Can Make Own Dotting Pen	December	103
Electrical Devices and How They Work	December	104
It Takes Time to Make This Color Change	December	108
Ink for Writing on Glass	December	109
A Fire-Alarm for an Oil Heater	December	109
A Tool of Many Angles	December	110
A Holder and Container for a Dictionary	December	110
A Rapid Method of Pasting Clippings	December	110
A Disappearing and Adjustable Bench-Stop	December	110
To Rebuild a Hard-Coal Fire	December	112
Finger Bands for Turning Over Leaves	December	113
Boring Tool for Holding Shank Cutters	December	113
For Thorough Ventilation of the Cellar	December	114
Twisted Picture-Cord for Fan Motor Brush	December	114
Woolen Hose Converted into Army Mittens	December	115
Converting Lawn-Mower into a Post-Hole Auger	December	115
To Make a Wheeled Serving-Tray	December	116
Light Gas Stove with Electric Spark	December	117
Rollers Help to Carry Tool-Boxes	December	117
A Drop of Oil Makes Toy Boat Run	December	118
Home-Made Rheostat for Service Lines	December	118
If You Knit for Soldiers	December	119
A Built-In Upright Drawer	December	121
An Audio Frequency Oscillator	December	122
To Make a Toy Submarine Boat	December	122
To Handle Newly Painted Signs	December	123
How to Split Paper	December	123
An Inexpensive Sanding-Machine	December	124
Laying Out Letters in Given Space	December	124
How to Handle Manure on the Farm	December	124
Use Vise for Stretching Soft Hat	December	125
Tool for Winding Solenoids Made of a Spool	December	126
Ink that Will Flow Evenly on Celluloid	December	126
Attaching Pressure Gage to Air Hose	December	126
A Super-Sensitive Microphone	December	126
A Turning Tower for the Children	December	127
A Square Bucket for Handling Sand	December	127

RAILWAYS

A Short Cut to Railroading	October	46
Biggest Locomotive in the World	October	78

SHIPS AND SHIPBUILDING

Foiling Davy Jones	October	22
Building Concrete Ships in a Hole	October	47
"She Sank by the Stern"—But Why?	October	61
Raising a New Crop of Ship-Builders	October	65
This Rudder Makes Torpedo-Dodging Easy	October	70
How Ford Builds Boats	October	71
An Unsinkable Ship at Last?	November	39
Steam, Sail, and Wood Meet Again in New Craft	November	61
Casting Ships in a Mold	November	68
Salvage Miracles Foil the Hun	November	80
You Can't Keep a Good Ship Down	November	81

SPORTS AND PASTIMES

Catch the Parachute	October	48
The Home Gymnast	October	56
Cage-Ball to Teach War Spirit	October	58
A Boy's One-Man Submarine	October	59
You Can Shoot Airplanes	October	78
Harness the Reel to Your Motorcycle	November	46
A Pocket Edition of the Great American Game	November	46
A Combination Rack and Triangle for Pool-Players	November	46
A Matter of Self-Protection (Boxing)	November	47
Adjustable Golf Rim Cup	November	75
"Speeder" for Children	November	75
"Loop-the-Loop" Glider	November	75

WAR MECHANICS

Fitting Shoes to Fighters	October	17
Three Ships a Week or Bust!	October	19
Light Goes a Long Way in France	October	19
Paris Protects Her Statues	October	19
Doughboy, Carry Your Stove with You	October	32
How Turks Transport Wounded	October	32
Barbed Wire Out of a Mortar	October	39
How Guns Bump the Bumps	October	39
A French Aerial Ambulance	October	52
Gassed!	October	53
Every Rejected Shell Is Conserved	October	53
No Holidays for Munitions Workers	October	53
